

Coiled Tubing Case Study

Equipment:
50 ton Boom Truck
Heavy CTWT

Challenge:
We were able to pick the injector from
the other side of well without
overloading crane.

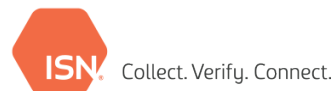

Advantage we gave to the customer:
Our smaller, high capacity crane meant lower cost per hour with higher
capacity & safety. We billed out of the nearest competitive location & our
units are rigged for oil patch work. (pos, tire chains, radios, tow hooks, etc)
